

ABOUT THE FUTURE

What kind of music will we listen to in the future? (10 years)

People used to say that cars would fly in the future. it hasn't arrived yet. Do you still believe that we will have some kind of flying cars flying over our heads?

A trip to Mars is very close to being realized. Will we travel around the space?

According to new research FORBES, almost two thirds (60%) of British people believe there will be a robot in every home within the next 50 years and only a quarter of them can't imagine a life where a robot wouldn't be part of their family. How will robots be a part of our lives?

How will be life in 50 years?

How can you imagine food in the future? Pills, frozen food, artificial meat?
